VICON TDX TOOLING OPTIONS

HIGH-PRODUCTION TDX FLANGE FORMING

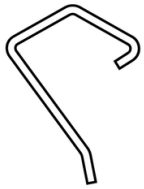

The Vicon TDX 16-Station Rollformer provides one inboard and one outboard roll space for optional tooling configurations. Available profiles expand the machine's capabilities beyond its standard TDX tooling, allowing fabricators to configure the rollformer for specific duct fabrication requirements.

INBOARD TOOLING OPTIONS

1-1/8" • 20-24 gauge
STANDARD STANDING "S"

TDX CLIP
